

A New Kind Of eDiscovery Consultant

The eDJ Advantage Program

Working with consultants is often frustrating because:

- Difficulty getting quick answers to burning questions
- Feeling that you are writing a blank check
- The fear of a never-ending, dependent relationship
- Uncertainty as to the value of the work
- Lurking fear of hidden sales agenda or referral partners

eDJ makes it easy for corporations and law firms to immediately engage the most knowledgeable eDiscovery and information governance consultants without committing to a large SOW. We call it the eDJ Advantage. This \$2,500 package includes:

- **Client on-boarding session** designed to familiarize eDJ with the client's eDiscovery and information governance strategic position, challenges, and goals. The on-boarding session also includes a guided tour of the eDJ Matrix and member benefits.
- **Four consulting sessions** which include market updates and discussion of issues specific to your eDiscovery and information goals and challenges or other topics of interest (each session limited to one hour).
- **Gold Level access to the eDJ Matrix**, the premier industry research resource. Gold level users can access eDJ's Tier 1 research reports, submit 1 email inquiry per month, and search and compare all of the available solutions in the market.

The eDJ Group is the premier research and advisory firm in the industry. eDiscovery professionals trust eDJ's independent and objective approach to research and consulting.

Why work with eDJ?

- Breadth of knowledge; depth of coverage
- Decades of expertise
- Software/Provider independence
- Focus on client education and empowerment
- Active research by working analysts

“On behalf of a grateful client, thank you for your dedication to our mission, complete accessibility, willingness to do whatever it takes to drive our project to the finish line in an efficient and cost effective manner, sensitivity to the needs of the business clients and attention to the details.”

— Assistant General Counsel
